

AEROSPACE CARGO LOGISTICS S.L.U

QUALITY POLICY

ACL(Aerospace Cargo Logistics S.L.U) is a Company founded in 2008 with the purpose of Cargo and logistic cargo in Spain and Europe to all sorts of goods transported and managed by Airlines , customs agent, freight carrier and individuals. Our target is to make a difference in the market making sure our activities and services are suitable, according to all requirements demanded by our customers and users with the purpose of maintaining a high level of satisfaction. All will be done with the support of our parent AZKAR/DACHSER Group.

This compromise with quality is followed the principles mentioned below:

- Focus our activity in identifying and satisfying the needs of our customers, offering a competent and agile service which meets de expectations and needs of our customers and users through the strict accomplishment of requirements agreed.
- Guarantee maximum quality services by accomplishing codes, legislations and rules required and applicable.
- Encourage a continued contact with our customer and its involvement in determining the quality of the service in order to satisfy expectations.
- Offering regular information and internal communication in order to keep motivation and capabilities of our team.

Aerospace Cargo Logistics S.L.U. Management works for an environmental policy applied in all its activities, which main objective is respect and protect the environment.

This philosophy is assumed in every single department of ACL , through the accomplishment of the following principles:

- Comply with the current environmental legislations.
- Encourage personnel to be concerned about environmental management.
- Ensure all materials are recycled and reused.
- Reduce and avoid as much as possible the generation of waste.
- Stablish environmental objectives and targets.
- Revise our environmental policy in order to continuously improve it.
- Take the necessary actions to prevent , reduce and control contamination.

Encourage subcontractor and suppliers to comply with the management of environmental policies. ACL compromises to intensify the environmental management to guarantee continuous improvements in the behavior of the company globally, as well as the regular establishment and revision of objectives and targets according to compromises assumed in this statement.
