

AEROSPACE CARGO LOGISTICS S.L.U

ENVIRONMENTAL POLICY

Aerospace Cargo Logistics S.L.U. management works for an environmental policy applied to all its activities, in which the main objective is respect and protect the environment.

This philosophy must be assumed in every single department of ACL, through the accomplishment of the following principles:

- Fulfilling the current legislation.
- Encourage staff to be concerned about environmental management.
- Reuse and recycle of materials.
- Reduce the generation of waste as much as possible.
- Establish regular objectives and targets.
- Revise our environmental policy regularly in order to be improved if possible.
- Take the necessary actions to avoid, reduce and control contamination.
- Encourage subcontractors and suppliers to apply the environmental policies.

ACL compromises to intensify the environmental management carried out, to guarantee the continuous improvement in the behaviour of the company globally, and the establishment and revision of objectives and targets according to the compromises assumed in this declaration.

A handwritten signature in blue ink, appearing to read 'B. Couto'.

Fdo. Begoña Couto

Branch Manager de ACL, S.L.U
